

CMP General Meeting Report May 13, 2017

Overview:

This report will contain the activities from July 2016 to May 2017 and other information pertaining to CMP.

Latest workings:

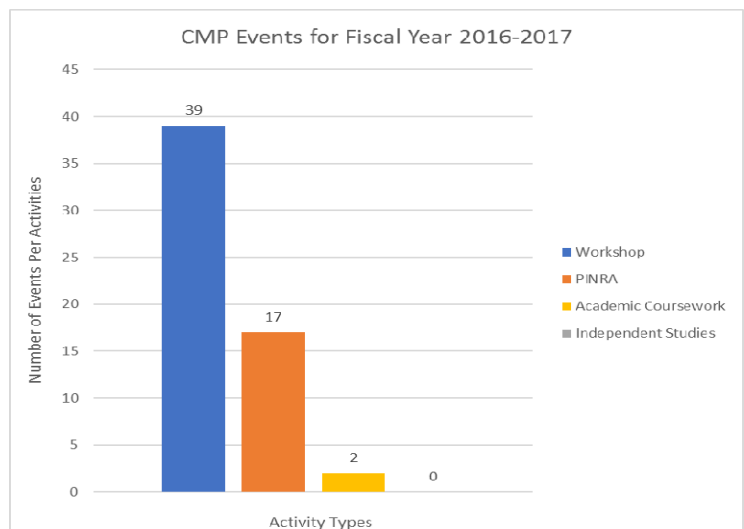

SCRID has decided to implement a Complimentary Benefit (a.k.a. “Benefit”) for the certified and associate members. This Benefit will allow the certified and associate members to submit either one PINRA or one AC to be processed during the Fiscal Year for free, no processing fee. The Benefit is scheduled to be implemented in July 2017. This Benefit cannot be used with any other benefit that SCRID offers to its members.

The Los Angeles Superior Court (LASC) in conjunction with CMP created a PINRA for their Sign Language Interpreter employees. This will allow the employees to submit a PINRA at the end of the calendar year for all the workshops/courses offered by LASC to meet their CIMCE requirements. This benefit is only offered the LASC employees.

An England based Sign Language Interpreting business has joined with CMP to provide CEUs for their webinars. American Sign Language Interpreters are attending these webinars along with the British Sign Language Interpreters. SCRID CMP does approve interpreter workshops in other countries. CMP is also working with an American Sign Language Interpreter who is working to present a workshop in London, England in June 2017.

The RID Conference of 2017 is going to provide live streaming of some workshops. SCRID CMP is currently researching what is involved for our membership, in earning CEUs, who want to watch from a facility locally.

The following graph is provided to show the number of different activities SCRID CMP has processed. You will notice that there is no colored bar for IS. There were no IS requests for 2016-2017 Fiscal Year.

Respectfully Submitted by,
Kathleen Lanker, CMP Committee Chair

IS – Independent Study AC – Academic Coursework WS – Workshop
PINRA – Participant Initiated Non-RID Activity

ACET – Associate Continuing Education Tracking
